9. Compute the Marginal Opportunity Cost from the following data:

Good X	0	1	2	3	4
Good Y	20	18	14	8	0

10. Compute the MOC and MRT from the following data:

Production Possibilities combination	A	B	C	D	E	F
Rice	0	1	2	3	4	5
Wheat	15	14	12	9	5	0

Statistics :-

1. Define the scope of Statistics .
2. Explain the main limitations of Statistics ?
3. What is meant by census method? Give its merits and demerits.
4. Compare census Method and Sample. Method of collecting data with reference to reliability ,time involved and cost.
5. Distinguish between sampling and non-sampling errors.
6. What kind of errors you would except in a fields survey by census method?

7. The following data is of the age of 25 students of class XI:

15	16	16	17	18	18	17	15	15	16	16	17	15	18	19	15	15
16	15	16	16	18	15	17	17	18	10	16	15	16	16	17	18	18

8. Convert the following inclusive series into exclusive series:

Marks	19-24	25-29	30-34	35-39	40-44
Frequency	2	7	6	2	3

9. Convert the following series into simple frequency distribution:

Mid Value	5	15	25	35	45	55
Frequency	2	8	15	12	7	6

10. Convertthe following series into simple frequency distribution:

Marks	More than 0	More than 10	More than 20	More than 30	More than 40
Frequency	21	19	14	7	2

Project Work:-

Effect on PPC due to various government policies Or Opportunity cost as an economic tool(taking real life situations) Using channel file.

PHYSICAL EDUCATION

1. Rohan, a student of class XI has taken up physical education as he is very Interested in making his career in the field of Physical Education. When he Was introduced to the career options available in the subject he became a bit Hesitant about continuing in this field because for him physical education was Just about playing so he approached his subject teacher to explain his position. 7. Explain why we see the same side of the moon.
8. Differentiate between Inner planets and Outer.
9. What do you mean by Big Bang Theory?
10. What are dwarf planets?
11. Who gave binary theory?
12. Who was the propounder of the nebular hypothesis?
13. Explain the development of the solar system.
14. Differentiate between Gulf and Strait.

15. What is IST? What are its implications?

16. Give the implications of India's latitudinal extent.

17. What is the need for understanding location of a place?

18. Explain about India and its neighbours.

PROJECT WORK:-

Select forest as a natural resource.
(i) Prepare a map of India showing the distribution of different types of forests.
(ii) Write about the economic importance of forests for the country.

Informatics Practices

Project Work (Practical File)

1. WAP to Add any four numbers.
2. WAP to subtract any two numbers.
3. WAP to multiply any four numbers.
4. WAP to Divide any two numbers.
5. WAP to find area and perimeter of Rectangle
6. WAP to find area and perimeter of Square
7. WAP to find area and perimeter of scalene triangle.
8. WAP to find area and perimeter of right triangle.
9. WAP to find Simple Interest.
10. WAP to find Compound Interest.
11. WAP to find square and cube of any number.
12. WAP to add (concatenate) two strings.
13. WAP to create List, Tuple and Dictionary.
