## *From The Principal's Desk*

"The secret of education lies in respecting the pupil. It is not for you to choose what he shall know what he shall do. It is chosen and foreordained and he only holds the key to his own secret." - Ralph Waldo Emerson

Believing in the uniqueness of each individual student's potential to make a positive contribution to our school, society and the Nation at large, we at SAVITRI DEVI DAV School strive to build confidence, instill decision making skills, and create quest for lifelong learning. We not only provide a vibrant physical environment assisting learning but also the direction, counsel, and support that they need to reach their full potential, by preparing them to face challenges and consequences with equanimity.

The gamut of new programmes, activities and projects planned and added each year ceaselessly empowers our students. This helps to impart quality education to our students, which makes them scholastically sound and also provides ample opportunities to hone their skills and talents. Though I strongly believe school is the second home for the students, the first teachers at home – the parents, have a great role to play along with the parents at school – the teachers.

Dear parents, it gives me great pleasure to welcome you, on to the portals of our esteemed institution. Join hands with us to make our dreams come true, to share our vision, experience and our passion for excellence. Let us together make the leaders of tomorrow.

*"Education is the most powerful weapon which you can use to change the world" - Nelson Mandela*
